

Assembly Instructions for ITB-17

Assembly Instructions for ITB-17 Merchandise Brackets & Hooks:

After assembling the display per the instructions:

1. Locate the 2 Merchandise Brackets. Unscrew wing nuts from the 2 brackets.
2. Mount the bracket to the display. Do not tighten the wingnuts completely.
Note: A & B are recommended locations of brackets - the bolt and wing-nut on the sides of the display will help support the bracket.
3. Slide the merchandise hooks down into the notches on both sides of the bracket.
4. After the hooks are inserted, finish tightening the wingnuts to secure the bracket to the display. Repeat process for second bracket.
