## Assembly Instructions for Ferris Wheel Spinner

### WHEEL ASSEMBLY

1. Remove end cap and spacer from horizontal bar
2. Use the spacer between the wheels as shown in picture.
3. Replace the end cap.  
*Note: for use in high winds we recommend applying epoxy glue in the end cap.*

### FERRIS WHEEL CAR ASSEMBLY

4. Pull off the loose pressure washers from the horizontal Ferris Wheel Car rods, slide on Ferris Wheel Cars and replace pressure washers.
5. Insert horizontal Ferris Wheel Car rod into the connector on front wheel. Use a slight side to side motion to help slide the rod into the connector.
6. Put together fiberglass pole and insert into ground stake.
